

# Luxury Home Story of La Ramia Plan- Award Winner 2004 Street of Dreams

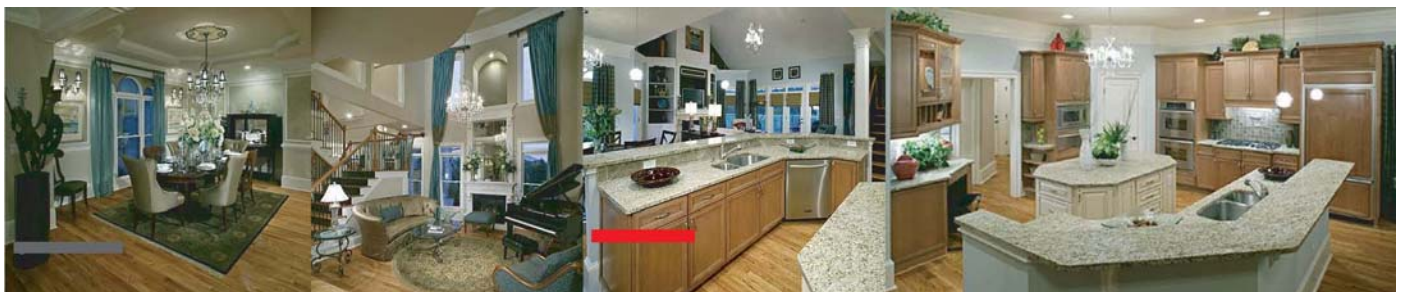

The La Ramia Plan is an award-winning plan-one of my favorite plans I designed for the 2004 Street of Dreams Show here in Atlanta. This luxury home (located in one of John Wieland Homes' exclusive neighborhoods' in Atlanta's Fayette County namely River Oaks) is lavishly designed and decorated for the Street of Dreams home show and was quickly purchased by a wealthy Atlanta executive and his wife.

This 7 bedroom-7,663 sf luxury gem (with a finished basement) is an estate home fit for a king and of-course a queen also! My European classic styled designed home finished on the exterior with brick and stucco trim has an open plan with lots of windows. Well you might say...what makes this plan so cool? Check these experiences of the La Ramia Plan home out!

**-Walk in the open 2-story foyer and see a lavish domed tray and direct view to beautiful rear back yard.**

**-As you enter the house, you marvel at the kingly appointed Dining Room with its cozy spacious room for lots of formal family dinners.**

**-The 2-story Living Room is the first room you see when you walk in and you immediately experience the opulent interior decorations, the lavish stone fireplace, the spectacular open stair and the 2-story wall of windows at the rear wall.**

**-The Kitchen, directly across from the family room, is an open large kitchen that all ladies dream about. This kitchen is equipped with all the latest luxury kitchen appliances and with the center island with its marble counter-tops, you can now dream of cooking some sweet food and entertaining friends.**

**-The Family Room , directly across from the kitchen is the spot for the man of the house! After a long day at work, the king and queen come home to relax and chill with the kids in this brightly natural lit family room. Watch TV, read a book or grab a snack you are close to all the action of fun!**

**-The Master Bedroom is open and big with its own sitting room (that faces the lavish deck and backyard) that is suited just right for the king and queen to enjoy themselves. The barrel vaulted tray ceiling adds volume and scale to this master bedroom. The colors of the finishes and the furnishing are just rich and stately!**

**-The Master bath is a dream bathroom. One of my favorite master bathrooms I ever designed features the large garden tub as the center piece of action with its lovely picture window looking outdoors. Yes there are his and hers vanities as well as his and hers spacious walk-in closets.**

These are just a few of the highlights of this Atlanta executive crib! For more information on the La Ramia Plan, please go to our website at [www.boyehomeplans.com](http://www.boyehomeplans.com) to review the floor plan in detail (go to "master on main-4,000 sf and above" section and also watch our "Picture Gallery" of spectacular pictures of the La Ramia. **Thanks for reading this feature and we say "*Its Time to Live Your Dreams*".**
